TRYPTO.INVESTMENTS™

Commercial Crowdfunding Infrastructure for Real-World Assets

Updated Whitepaper Overview | 2026

Executive Summary

TRYPTO.INVESTMENTS™ is the commercial crowdfunding platform developed by Trypto Business Solutions, LLC to help connect capital with real-world opportunities through a technology-driven ecosystem.

Rather than operating as a standalone website, TRYPTO.INVESTMENTS serves as the financial infrastructure connecting investors, entrepreneurs, developers, and consumers across multiple commercial sectors.

Today, the ecosystem consists of four integrated technology platforms:

1. VegasTinyHomes.com™ Real-world project development focused on micro-living, hospitality, and commercial real estate opportunities.
 2. WorldofTinyHomes.com™ A global marketplace connecting builders, manufacturers, landowners, developers, buyers, and industry professionals.
 3. TRYPTO.INVESTMENTS™ The commercial crowdfunding platform providing investor onboarding, project discovery, treasury infrastructure, and blockchain-enabled participation.
 4. TRYP24™ A consumer-facing experiences marketplace designed to connect entertainment, hospitality, travel, restaurants, venues, and lifestyle experiences into one digital ecosystem.
- Together, these four pillars create a commercial framework where capital, real-world assets, businesses, and consumers interact within one connected platform.

Where We Are Today

TRYPTO.INVESTMENTS has progressed beyond concept development into an active ecosystem with core technology, branding, platform architecture, and commercial use cases under development.

Current milestones include:

- Commercial crowdfunding platform established
- Investor onboarding framework
- Treasury infrastructure
- Utility token ecosystem
- Real-world asset integration strategy
- Entertainment and hospitality ecosystem
- Commercial partnerships
- Marketplace development
- Consumer engagement through the TRYP24 platform

Our objective is to continue expanding the ecosystem through strategic partnerships, technology development, and commercial adoption.

Our Mission

Our mission is simple:

Build infrastructure—not speculation.

TRYPTO.INVESTMENTS was designed to help businesses raise capital, support real-world projects, and expand commercial opportunities using modern financial technology.

The platform is intended to connect:

Investors

Developers

Entrepreneurs

Property Owners

Hospitality Companies

Entertainment Businesses

Community Organizations

Consumers

through one integrated ecosystem.

The Four-Pillar Ecosystem

Pillar One

VegasTinyHomes.com™

Real-world development.

Creates commercial projects, hospitality concepts, micro-living communities, and future real estate opportunities.

↓

Pillar Two

WorldofTinyHomes.com™

Marketplace infrastructure.

Connects buyers, sellers, manufacturers, landowners, vendors, and industry professionals.

↓

Pillar Three

TRYPTO.INVESTMENTS™

Commercial crowdfunding infrastructure.

Provides investor onboarding, treasury management, digital participation, and project funding infrastructure.

↓

Pillar Four

TRYP24™

Consumer marketplace.

Connects consumers with businesses, events, travel, restaurants, hospitality experiences, entertainment, and rewards.

The Trypto Treasury Network

The Treasury Network serves as the financial coordination layer of the ecosystem.

Primary objectives include:

Treasury management

Commercial project funding

Ecosystem expansion

Strategic partnerships

Platform operations

Digital infrastructure

Community initiatives

Future real-world asset opportunities

As the ecosystem grows, the treasury is intended to support long-term platform development and ecosystem sustainability.
